- When nuclear fusion of  
hydrogen becomes the dominant  
energy production process and  
the excess energy gained from  
gravitational contraction has been  
lost, the star lies along a curve on  
the Hertzprungâ€“Russell  
diagram (or HR diagram) called  
the standard main sequence. Tue,

sequence - Wikipedia -  
Contemplation of the diagram led  
astronomers to speculate that it  
might demonstrate stellar  
evolution, the main suggestion  
being that stars collapsed from  
red giants to dwarf stars, then  
moving down along the line of  
the main sequence in the course  
of their lifetimes. Mon, 16 Apr
